"We are pleased with our first quarter performance, which exceeded our expectations and was driven by strong comparable store sales, new store productivity, and margin expansion. Customers are responding to our compelling deals, resulting in accelerating transaction trends and we are encouraged to see our product offerings appealing to a wider customer base that includes more higher income and younger-age shoppers," said John Swygert, President and Chief Executive Officer. "Our deal flow remains robust, and we believe that we are well positioned in the current environment as consumers are increasingly looking for value. As a result of our strong first quarter performance and continued momentum in the business, we are raising our outlook for fiscal year 2023."

## First Quarter Results

Net sales increased $12.9 \%$ to $\$ 459.2$ million in the first quarter of fiscal 2023 as compared with net sales of $\$ 406.7$ million in the first quarter of fiscal 2022. The increase in net sales was the result of new store unit growth in addition to a comparable store sales increase of $4.5 \%$.

Gross profit increased $26.4 \%$ to $\$ 178.6$ million in the first quarter of fiscal 2023 from $\$ 141.3$ million in the first quarter of fiscal 2022. Gross margin increased 410 basis points to $38.9 \%$ in the first quarter of fiscal 2023 from $34.8 \%$ in the first quarter of fiscal 2022. The increase in gross margin was primarily due to favorable supply chain costs, partially offset by lower merchandise margin related to shrink and a higher mix of consumables.

Selling, general, and administrative expenses increased $12.0 \%$ to $\$ 130.3$ million in the first quarter of fiscal 2023 from $\$ 116.3$ million in the first quarter of fiscal 2022. The increase was primarily driven by higher selling expenses related to new store openings and incentive compensation. As a percentage of net sales, SG\&A decreased to $28.4 \%$ in the first quarter of fiscal 2023 compared to $28.6 \%$ in the first quarter of fiscal 2022 primarily the result of leverage of fixed expenses on the increase in comparable store sales partially offset by higher incentive compensation.

Pre-opening expenses for new stores increased to $\$ 3.3$ million in the first quarter of fiscal 2023 from $\$ 2.7$ million in the first quarter of fiscal 2022 primarily driven by incremental investments in our store remodel program, partially offset by timing of new stores.

Operating income increased $124.8 \%$ to $\$ 38.5$ million in the first quarter of fiscal 2023 from $\$ 17.1$ million in the first quarter of fiscal 2022. Operating margin increased 420 basis points to $8.4 \%$ in the first quarter of fiscal 2023 from $4.2 \%$ in the first quarter of fiscal 2022.

Net income increased $147.4 \%$ to $\$ 31.0$ million, or $\$ 0.50$ per diluted share, in the first quarter of fiscal 2023 compared with net income of $\$ 12.5$ million, or $\$ 0.20$ per diluted share, in the first quarter of fiscal 2022. Adjusted net income ${ }^{(1)}$ increased $140.9 \%$ to $\$ 30.8$ million, or $\$ 0.49$ per diluted share, in the first quarter of fiscal 2023 from $\$ 12.8$ million, or $\$ 0.20$ per diluted share, in the first quarter of fiscal 2022.

Adjusted EBITDA ${ }^{(1)}$ increased $88.5 \%$ to $\$ 49.5$ million in the first quarter of fiscal 2023 from $\$ 26.2$ million in the first quarter of fiscal 2022. Adjusted EBITDA margin ${ }^{(1)}$ increased 430 basis points to $10.8 \%$ in the first quarter of fiscal 2023 from $6.5 \%$ in the first quarter of fiscal 2022. Adjusted EBITDA excludes non-cash stock-based compensation expense.

## Balance Sheet and Cash Flow Highlights

The Company's cash and cash equivalents and short-term investments were $\$ 275.5$ million as of the end of the first quarter of fiscal 2023 compared with cash and cash equivalents of $\$ 205.5$ million as of the end of the end of the first quarter of fiscal 2022. The Company had no borrowings outstanding under its $\$ 100$ million revolving credit facility and $\$ 91.6$ million of availability under the facility as of the end of the first quarter of fiscal 2023. The Company ended the period with total borrowings, consisting solely of finance lease obligations, of $\$ 1.5$ million as of the end of the first quarter of fiscal 2023.

During the first quarter of fiscal 2023, the Company invested $\$ 12.3$ million of cash to repurchase 215,522 shares of its common stock. As of the end of the first quarter, the Company had $\$ 125.9$ million of remaining capacity under its current share repurchase program.

Inventories as of the end of the first quarter of fiscal 2023 decreased $3.7 \%$ to $\$ 498.0$ million compared with $\$ 517.0$ million as of the end of the first quarter of fiscal 2022, driven by the impact of lower freight costs and a normalization of lead times on our in-transit inventory, partially offset by new store growth.

Capital expenditures were $\$ 19.0$ million in the first quarter of fiscal 2023, primarily related to the development of new stores, the remodeling of existing stores, the expansion of the Company's distribution center in York, PA, and the development of the Company's new distribution center in Princeton, IL.

Supplemental Information
Reconciliation of GAAP to Non-GAAP Financial Measures
(Dollars in thousands)
(Unaudited)
The Company reports its financial results in accordance with GAAP. We have included the non-GAAP measures of EBITDA, adjusted EBITDA, adjusted EBITDA margin, adjusted net income and adjusted net income per diluted share in this press release as these are key measures used by our management and our board of directors to evaluate our operating performance and the effectiveness of our business strategies, make budgeting decisions, and evaluate compensation decisions. Management believes it is useful to investors and analysts to evaluate these non-GAAP measures on the same basis as management uses to evaluate the Company's operating results. We believe that excluding items that may not be indicative of, or are unrelated to, our core operating results, and that may vary in frequency or magnitude from net income and net income per diluted share, enhances the comparability of our results and provides a better baseline for analyzing trends in our business.

The tables below reconcile the most directly comparable GAAP measure to non-GAAP financial measures: net income to adjusted net income, net income per diluted share to adjusted net income per diluted share, and net income to EBITDA and adjusted EBITDA.

Adjusted net income and adjusted net income per diluted share exclude excess tax benefits related to stock-based compensation, which may not occur with the same frequency or magnitude in future periods. We define EBITDA as net income before net interest income or expense, depreciation and amortization expenses and income taxes. Adjusted EBITDA represents EBITDA as further adjusted for non-cash stock-based compensation expense and gains on insurance settlements.

Non-GAAP financial measures should be viewed as supplementing, and not as an alternative to or substitute for, the Company's financial results prepared in accordance with GAAP. Certain of the items that may be excluded or included in non-GAAP financial measures may be significant items that could impact the Company's financial position, results of operations and cash flows and should therefore be considered in assessing the Company's actual financial condition and performance. The methods used by the Company to calculate its non-GAAP financial measures may differ significantly from methods used by other companies to compute similar measures. As a result, any non-GAAP financial measures presented herein may not be comparable to similar measures provided by other companies.
