## Second Quarter Results

Net sales increased $20.5 \%$ to $\$ 254.6$ million in the second quarter of fiscal 2017 from $\$ 211.3$ million in the second quarter of fiscal 2016 . The increase in net sales was driven by a $4.5 \%$ increase in comparable store sales and increased store count compared to the second quarter of fiscal 2016. The Company opened 11 stores in the second quarter of fiscal 2017 and ended the quarter with 250 stores compared to 216 stores at the end of the second quarter in fiscal 2016.

Gross profit increased $19.6 \%$ to $\$ 100.2$ million in the second quarter of fiscal 2017 from $\$ 83.8$ million in the second quarter of fiscal 2016. Gross margin decreased 30 basis points to $39.4 \%$ in the second quarter of fiscal 2017 from $39.7 \%$ in the second quarter of fiscal 2016 . The decrease in gross margin is due to decreased merchandise margins partially offset by favorable distribution center and transportation costs as a percentage of net sales.

Operating income increased $35.6 \%$ to $\$ 29.8$ million in the second quarter of fiscal 2017 from $\$ 22.0$ million in the second quarter of fiscal 2016 . As a percentage of net sales, operating income increased 130 basis points to $11.7 \%$ in the second quarter of fiscal 2017 . Excluding $\$ 0.3$ million of transaction related expenses incurred in the second quarter of last year, Adjusted operating income increased $34.0 \%$ and 120 basis points as a percentage of net sales.

Net income increased $50.1 \%$ to $\$ 19.7$ million, or $\$ 0.30$ per diluted share, in the second quarter of fiscal 2017 from $\$ 13.1$ million, or $\$ 0.21$ per diluted share, in the second quarter of fiscal 2016. Adjusted net income (1), which excludes income tax benefits due to the accounting change for stock based compensation in the current year and excluding transaction related expenses net of taxes in the prior year, increased $34.0 \%$ to $\$ 17.8$ million, or $\$ 0.27$ per diluted share, in the second quarter of fiscal 2017 from $\$ 13.3$ million, or $\$ 0.21$ per diluted share, in the second quarter of fiscal 2016.

Adjusted EBITDA ${ }^{(1)}$ increased $31.6 \%$ to $\$ 34.9$ million, or $13.7 \%$ of net sales, in the second quarter of fiscal 2017 from $\$ 26.5$ million, or $12.6 \%$ of net sales, in the second quarter of fiscal 2016. Adjusted EBITDA excludes non-cash stock based compensation expense, non-cash purchase accounting items and transaction related expenses.

## Balance Sheet and Cash Flow Highlights

The Company's cash balance as of the end of the second quarter of fiscal 2017 was $\$ 24.8$ million compared to $\$ 30.7$ million at the end of the second quarter of fiscal 2016. The Company had no borrowings under its $\$ 100.0$ million revolving credit facility and $\$ 97.6$ million of availability under the facility at the end of the second quarter of fiscal 2017. The Company ended the second quarter of fiscal 2017 with total debt of $\$ 129.2$ million compared to $\$ 197.7$ million at the end of the second quarter of fiscal 2016.

Inventory at the end of the second quarter of fiscal 2017 increased $17.3 \%$ to $\$ 253.0$ million compared to $\$ 215.7$ million at the end of the second quarter of fiscal 2016, primarily due to new store growth and timing of deal flow.

Capital expenditures for the second quarter of fiscal 2017 totaled $\$ 5.7$ million compared to $\$ 5.2$ million for the second quarter of fiscal 2016.

(2) Adjusted net income per diluted share is not a measure recognized under GAAP. For a definition of Adjusted net income per diluted share, please see the disclosures related to the reconciliation of GAAP to non-GAAP tables elsewhere in this release. The $\$ 0.07$ per diluted share difference between the guidance ranges for Net income per diluted share and Adjusted net income per diluted share reflects exclusion of the loss on extinguishment of debt and income tax benefits due to the change in accounting for stock based compensation incurred and reported for the twenty-six weeks ended July $29,2017$. The Company cannot predict future transaction related estimates without unreasonable effort and therefore excludes any such estimates from its Outlook.

## Ollie's Bargain Outlet Holdings, Inc. Supplemental Information

## Reconciliation of GAAP to Non-GAAP Financial Measures

(Dollars in thousands)
(Unaudited)
The Company reports its financial results in accordance with U.S. generally accepted accounting principles ("GAAP"). We have included the non-GAAP measures of Adjusted operating income, EBITDA, Adjusted EBITDA, Adjusted net income and Adjusted net income per diluted share in this press release as these are key measures used by our management and our board of directors to evaluate our operating performance and the effectiveness of our business strategies, make budgeting decisions, and evaluate compensation decisions. Management believes it is useful to investors and analysts to evaluate these nonGAAP measures on the same basis as management uses to evaluate the Company's operating results. We believe that excluding items that may not be indicative of, or are unrelated to, our core operating results, and that may vary in frequency or magnitude, from operating income, Net income and Net income per diluted share, enhances the comparability of our results and provides a better baseline for analyzing trends in our business.

The tables below reconcile the non-GAAP financial measures of Adjusted operating income to operating income, Adjusted net income to Net income, Adjusted net income per diluted share to Net income per diluted share, and EBITDA and Adjusted EBITDA to Net income, in each case the most directly comparable GAAP measure.

Adjusted net income and Adjusted net income per diluted share give effect, net of tax, to transaction related expenses, loss on extinguishment of debt, and income tax benefits due to the accounting change for stock based compensation, which may not occur with the same frequency or magnitude in future periods. Adjusted operating income also gives effect to transaction related expenses. We define EBITDA as net income before net interest expense, loss on extinguishment of debt, depreciation and amortization expenses and income taxes. Adjusted EBITDA represents EBITDA as further adjusted for non-cash stock based compensation expense, non-cash purchase accounting items, and transaction related expenses, which we do not consider representative of our ongoing operating performance.

Non-GAAP financial measures should be viewed as supplementing, and not as an alternative to or substitute for, the Company's financial results prepared in accordance with GAAP. Certain of the items that may be excluded or included in non-GAAP financial measures may be significant items that could impact the Company's financial position, results of operations and cash flows and should therefore be considered in assessing the Company's actual financial condition and performance. The methods used by the Company to calculate its non-GAAP financial measures may differ significantly from methods used by other companies to compute similar measures. As a result, any non-GAAP financial measures presented herein may not be comparable to similar measures provided by other companies.
